A Natural Remedy

Time was when disease was thought to be due to the direct influence of evil spirits, and exorcism and magic were invoked to cast it out.

Science has taught us wisdom. The evil spirits exist still. We call them "Disease" Germs," and they also must be cast out. "Once lodged in the stomach or intestines, fever with its hallucinations, or biliousness with its aches and pains, is the result:

ENO'S FRUITSALT

is the approved remedy for driving out disease germs. Its action is quick and thorough. It clears the intestines, rouses the torpid liver to new life, stimulates the mucous membrane to a healthy action, and cleanses and invigorates the whole digestive tract.

It may be safely taken at any time by young. or old.

It is very effective in the early stage of Diarrhad by removing the irritating cause.

Be prepared for emergencies by always keeping a bottle in the house.

A DIVORCE CASE.

CHINESE LOCAL PREACHER GRANTED

Sitting in Divorce to day, says the "Straits Times" of August 6, the Chief Justice (Sir W. H. Hyndman Jones) heard a petition preferred by Tiu Cheng Liong for annulment of his marriage with his wife, Iu Kim Liong, on the ground of adultery with one William Tet Nah who was named as co-respondent. Petitioner was represented by Mr. P. Sammy, and the bl6 | case was undeferided.

Mr. Sammy stated that service of the petition had been dispensed with because the whereabouts of respondent and corespondent were unknown. LICENSES FOR BACHELORS

MONEY DEVOTED TO SABIES, HOSPITAL.

The city council of Memphis, Tennessee, has passed a by-law taxing bachelors to provide money for the maintenance of summer hospital for sick babies and their mothers, and to provide milk and otherrwise assist the battles during the hot sum-

Chicago correspondent, that no unmarried his brothers deprived him of the money. He male over twenty-one years of age shall be did not intend to go back to China as his allowed to be in the streets of Mamphia prospects in Singapore were better. As to after nine o'clock at night or to accompany respondent's domicile, she was a Straits an unmarried woman to any place of smusement unless he has paid the tax. He must present a bachelor's license demand, and if he is unable to do so he may be fined from £1 to £10.

At first resistance was made to this regulation, but in less than two days several of the most prominent bachelors in the city had been arrested and fined double the amount of the tax. Soon everybody was paying cheerfully.

The tax is £1, and every bachelor must take out what is called a "bachelor privilege license." It applies only to the summer months. On the money so provided a summer hospital, containing 100 babies, it maintained.

SHOOTING AT BISLEY.

THE KOLLPORE CUP.

Team shooting of extraordinary brilliance and steadiness characterised the match for the Kolapore Cup, one of the oldest of the atunding events of the National Ride Association programme. It is a match for teams of eighb, composed of Territoriala or retired Territorials, selected by the Mother Country and similar teams chosen from the forces as nearly as possible cor responding to them by the various Domin" ions of the Empire: The spirit of friendly A physician explains, in The Practitioner, emulation which the match evokes salways why doctors use it for themselves. He keen; and the marksmanship it has disclosed has frequently been superb; yet it is doubtful whether these two elements were over present in greater degree than Why doctors prescribe it for their patients they were to day. Though six teams compoted - representing respectively the British Pharmacopoeia lozenges and most Mother Country, Australia, Canada, India, of the well-known proprietary antiseptic South Africa; and Guernsey-the narrow lozenges; I have become reduced to one, margin of 8 points covered the totals of all and one only (for sore throat), namely, six when the shooting had, finished at 30'r Distingui-hed patients who have used yards, the first distance. The Mother Wulling's Formamint are equally emphatic Country and Australia were then level; in their statements. Viscount Masser ene but at the second distance, 500 yards, where the scoring average rose about a couple of points per man, the Moth r Country drew gradually away, and finished 10 points in advance of Australia. On her eight men the Mother Country only dropped 8 points, at the range-surely wonderful toam shooting! But even better shooting was to be seen at the final distance of 600 yards, where the M ther Country slightly in-

erensed the lead and already held, and finished with an aggregate of 700 points. More interesting, however, was the closeween of the tusn'e for second place between Australia and Canada; and what gave the bout keener zest, if possible, was the fact that at 500 yards one of the Australians had been unfortunate enough to put a bull's-eye on the wrong target. Canada, ... as it happened, had finished for an aggregato of 777 when the last two of the Aus. tralian team were really only beginning the ir shooting at the final distance. The pair shot exceedingly well, but, nevertheloss, the Australians required a final bull's eye to place them on an equality with the Canadians. This bull's-eye was forth. coming, so that on the figures the two towns tied; but inasmuch as Australia had

the better total at the last range by a single point, she took precedence of her rival, and so carried off the special Colonial Prize of £50, which is awarded to the best team apart from the Mother Country. The following serves need no comment. Their excellence speaks for itself: . KOLLPORE CUP. -- Open to teams of eight,

chosen by the Mother Country and the various Dominions. Seven shots per man' with the service rife at 300, 500, and 600 yards. .

A report to hand from St. Petersburg describes a mysterious drama that has) taken place in the family of the Siameso Ministor, Luang Visans, in that capit l. On account of her beauty and amiability the Minister's wife is said to have been much liked and admired in St. Petersburg society. A few weeks ago calls for help were heard from her boudeir, and when her husband obtained admittance by having the door broken open he found her lying on the ground in convulsions. The floor of the boudoir was strewn with sulphur | I unfurnished 6 Rosman Chasp matches from which the phosphorus had rental

treatment she is now out of danger.

Lieutonant Master-Armouter Walter croquet lawns: Field, of the Malay States Guides, has retired and has gone home to Birmingham, where his family has been well-known for I many years. His place will be taken by Mr. A. Hayward, of the 3rd Middlesex Regiment, now stationed at Cawnpore. Mr. Field retired laden with prevents and with illuminated addresses. General Stephenson, the General Officer Commanding, in the Straits and F. M.S., paid him the honour of a personal visit when he was at Talping inspecting the M.S.V.R. and the mules a few days ago. There was a very pleasant little function at the officers moss of the Quides recently whomble. Field was entertained at dinner by his Commandant (Colonel Murray) and the officers of the regiment, who presented bim with a massive, wolld silver tankard, appropriately inscribed, as a token of their rogard. The inscription bears the dates of his service 1886 1913, formes which speak

A Celebrated Violiniste

Nervous Fatigue augue, Languor-

The fower to excel, the confidence which ensures her brilliant successes, says the talented violinist, Miss Sybil Keymer, is entirely due to her abundance of vigorous nerve force created by Phosferine. How greatly the numerous distinctions and triumphant career of this accomplished musician are promoted by the brain energy and physical stamina developed by Phosserine, is evident from Miss Keymer's admission that the tonic "enabled me to do myself justice." This power to excel, this ability to make perfect use of her skill, depends upon the marvellous control and steadiness" of the muscle narves Phosferine has given her, and to which she owes the entrancing tone and quality of her musical renditions. Naturally, this energising effect of Phosferine was accompanied by the disappearance of the headaches, listlessness, and fatigue, which were the bane of her public appearances, and it is this happy outcome which impels Miss Keymer to testify to the exceptional advantages to be derived from Phosferine.

Promptly Remedied.

Miss Sybil Keymer, "Riversmere," Albany Rd., Leighton Buzzard, Eng., writes: "I think I should inform you that I have recently derived very great benefit from the use of Phosferine. In the course of my profession I have to travel a good deal in getting to my various concerts, and I find that since using Phosferine I am never troubled with the headaches and "listlessness which follow a long railway journey, particularly during hot weather. This is of very great importance to me, as frequently only a very little time elapses between reaching my destination and the commencement of a concert, and it is such a relief to feel fresh and ready for playing in public undisturbed by the fatigues of long travelling. It is because I feel that Phosferine enables me to do myself justice as a violinist, preventing any of the unsteadiness of the muscle nerves, which is so harmful to tone and quality; that I confidently commend the tonic at every opportunity."-July 17, 1912.

THE HON. E. G. BROADRICK.

The Hon. E. G. Broadrick, Resident of

Selangor, went on long leave by the P. rers, an old school-fellow of Mr. Broad-

the Schanger Club in elequent terms. Mr. Broadrick in roply referred to the interest he had always taken in the affairs of the club and the pleasure it had liven him to help in the work of its management. He concluded by expressing a hope that a certain Dreadnought might be launched ere his leave in England expired.

STAGE GLAMOUR.

CURATE IN THE CHORUS AT DALY'S THEATRE. A country curate who applied for position in the chorus at Daly's Theatre has had his application refused. The Times, in a leader; congratulates the curate on his failure, saying that it is botter to live meanly and earn the affection of one village youth than to obtain the brief enthusiasm of pleasure-seekers.

THE ROYAL BETROTHAL.

Prince Arthur and the Duchess of Fife.

The King and Queen received the bour on July 51 which lasted well over Connaught, their Majesties' cousin, to Hor Highness the Duchess of Fife, their Majestics' nicco, to which union the King has gladly given his consent.

THE DUCHESS OF FIFE. The Duchess of Fife (Princess Alexandra) is the older daughter of the late lish or European royalty.

At any rate, estate was provisionally sworn at it should be stated, had been safely de-£1,000,000 on Msy 29, 1012.

Prince Arthur of Connaught is the only son of the Duke and Duchess of Connaught. He is thirty years of age, tall, fair, and very good looking and extremely popular not only in society but in the Army, especially with his brother officers in the Scots Greys, who have been quar tored at York for the past year or so. He was a great favourite of his late uncle King Edward, as he is of his cousin the present King. He has charming manners and possesses the happy knack of at once putting at case those with whom he

brought into contact. He rides extremely well and is looked upon in the highest military quarters a very capable and keen soldier.

As representative of his Sovereign abroad he has been a decided success, and those who have been attached to his suite are full of praise for his tact and digulty and discretion. There is no more popular royal guest at a dinner party or ball.

He has been the King's Ambassador almost overy Court of Europe, and it was directly due to the suggestion of his Majesty that the Prince was made the chief of the four "Councillors of State who were the official head of the Empire luring the absence of his Majesty at the

Indian Durbar. Lord Kitchener once remarked of him that it was rather a pity he was born royal Prince, since that fact would probably prevent him from taking the prominent position in the Army to which his abilities entitled him.

WORLD-WIDE GOOD WISHES. Congratulations reached Prince Arthur of Connaught and the Duchess of Fife from all parts of the world. Everywhere the news was received with intense plea- Do Women Marry?" sure and satisfaction.

RICHER THAN ROCKEFELLER

" John D. Reckefeller is a poor man when compared with me, I have so much that I have never been able to count it, and I don't think Mr. Rockefeller will dispute my word."

Without a suggestion of hoasting, Senor Ezequiel Ossio, of Chile, thus replied recently, when he reached New York to the statement that John D. Rockefeller was the richest man in the world.

"What is the extent of your wealth?" one of the awe-stricken newspaper reporters asked him, as they steed on the deck of the United Fruit steamer Santa Maria. "That I cannot tell ; perhaps is is four, five hundred millions, or more likely a billion dollars. Suffice that I am the Nitrate King, the richest man in the world," and with a smile Senor Cano bowed and left the astonished group to join Senora Ossio and their suite. Unlike John, Senor Ossio is robust. His complexion is olive, and his hair is white.

Ho travels with a princely suite, including secretaries, valet, maid, chauffeur, and a boy who had charge of three suitcases filled with shoos. The remaining baggage of the Nitrate King con isted of fifteen handbage, eleven trunks, three hat boxes, and two large bundles. The party came from Iquique.

The tide table give below has been compiled at the Nautical Almanao Office in London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Water Police Basin at Taim Sha Trui during the years 1887-8-9.

The zero of the table corresponds with the zero of the sounding in the Admiralty Charts which has been found to be 4 feet Sinches below mean sea level.

To obtain the depth of water on the tide gauge at the Victoria Naval Yard add Sfeet 4 inches, and on the gauge at Lamon

Dock, Aberdeen, add 10 feet 6 inches to
